

Mobile Sitter App: Why does the Mobile Sitter App not show up on my phone?

The LeashTime Mobile Sitter App will only appear:

- If you login as a sitter (not as a manager)
- If you are using a supported smartphone (iPhone or ANdroid phone)
- If your device has internet access
- If your manager has enabled access to the LeashTime Mobile Sitter App for all sitters or for you individually
- If the web browser on your phone is configured to allow cookies
- If the web browser on your phone has Javascript enabled.

See the [LeashTime Mobile Sitter App Manual](#).

Unique solution ID: #1022
